

EFFORTLESS RELENTLESS PROTECTION

With CDP on Sangfor HCI

CHALLENGES & OPPORTUNITIES

- Near-zero data loss is a must for business critical applications
- Traditional CDP solution is extremely costly and difficult to use
- CDP and virtualization are usually from 2 different vendors, increasing management overhead

WHAT SANGFOR BRINGS TO THE TABLE

- Unified management, CDP is just another feature
- 5-steps to enable CDP
- Near-zero RPO
- Instant recovery and file browsing

VALUES

- One-stop solution for your business-critical application protection
- Easy to use
- Quick to set up
- No performance degradation
