

**SANGFOR**

## **Sangfor 2<sup>ND</sup> Generation CPU VDS Server aDesk STD-200H-S(VGA)/ STD-200H-S(HDMI)/ STD-500 End-of-Sale (EOS) Announcement**

### **1. End-of-Sale**

Due to an end-of-sale policy in the hardware supply chain, we are unable to guarantee the supply of 2<sup>nd</sup> Generation CPU VDS servers from July 2023. Therefore, we have decided to launch the 3<sup>rd</sup> Generation CPU VDS server in February 2023. The 2<sup>nd</sup> and 3<sup>rd</sup> Generation CPU VDS servers will be sold in parallel for a period of time.

To enhance the performance of the thin client, we will launch a new thin client model to replace the current model, which will become an end-of-sale (EoS) product.

Please check the latest datasheet for specific information on each model and the sizing guide.

### **New Model Available Dates and Versions:**

| Product         | Available Date                               | Version  |
|-----------------|--|--|
| VDS-W Series    | 2023/02/20                                   | v5.6.0/v5.5.6 and above.<br><b>Does not support low versions. Low versions need to be upgraded or purchase the 2<sup>nd</sup> Gen -R server before the End-of-Sale date.</b> |
| STD-220/STD-620 | 2023/03/31<br>after the release of<br>v5.5.6 | v5.4.0 and above.<br><b>Does not support low versions. Low versions need to be upgraded or purchase the STD-200/STD-500 before the End-of-Sale date.</b>                     |
