

Sangfor aDesk License Adjustment Announcement

Dear Partners and Customers,

To streamline the Sangfor aDesk user license, we will soon be making the following adjustments to Sangfor aDesk user licensing:

1. With the release of VDC version 5.9.8, the Silver User License will no longer support Virtual App.

Function Module		Silver Users	Golden Users	Platinum Users
Basic Functions	Basic Platform Functions	✓	✓	✓
	Virtual App	✗	✓	✓
3D	NVIDIA GRID Virtual PC	✗	✓	✓
	NVIDIA GRID Virtual Data Center Workstation	✗	✗	✓
	3D Virtual App	✗	✗	✓
	GPU Bypass	✗	✗	✓
Workstation Management	PC Remote Access	✗	✗	✓
Zero-Trust VDI	aTrust & VDI 2 in 1 client, SSO	✗	✓	✓

<https://www.sangfor.com/cloud-and-infrastructure/products/vdi-virtual-desktop-infrastructure/plans>

2. To simplify our license, we will no longer sell Silver User licenses in international markets. At the same time, we will lower the price of Golden User licenses to match the previous price of Silver User licenses.
Remove the following SKUs from the system:
VDI-LIC-STD/VDI-LIC-STD-MKT/VDI-LIC-U100/VDI-LIC-U300/VDI-LIC-EDU-BAS/VDI-LIC-STD-1Y/VDI-LIC-STD-3Y/VDI-LIC-STD-5Y
3. Orders for which quotes have already been provided may continue to be fulfilled according to the original quote and will not be affected. Existing customers placing orders on the international market may upgrade their Silver User License to a Golden User License at no additional cost.

Recommendations for the Future:

1. For standard 2D virtual desktops and virtual applications, please purchase the Golden license.
2. 3D Virtual Desktops, PC Remote Access, please purchase the Platinum license.

This adjustment applies only to international markets and does not include the domestic China market; it will take effect on September 1, 2026.

We thank you for your continuous support to Sangfor. We always strive to offer quality products and services to our partners and customers.

Should you have any enquiries, please feel free to feedback to sales@sangfor.com or tech.support@sangfor.com.

Sincerely
Sangfor Technologies Inc.
