Chapter 1 Background

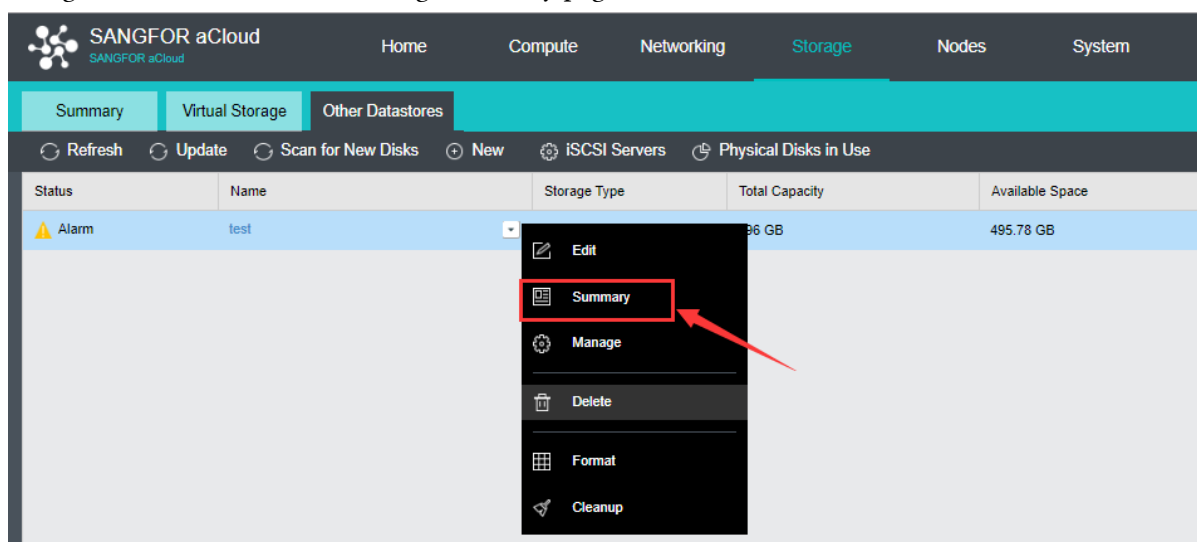

Under the situation that the previously added iSCSI external storage in aCloud is facing insufficient available storage issue, you will need to either expand the iSCSI/FC storage or increase an external storage. Steps to expand iSCSI external storage in aCloud will be guided in Chapter 2.

Chapter 2 Configuration guidelines

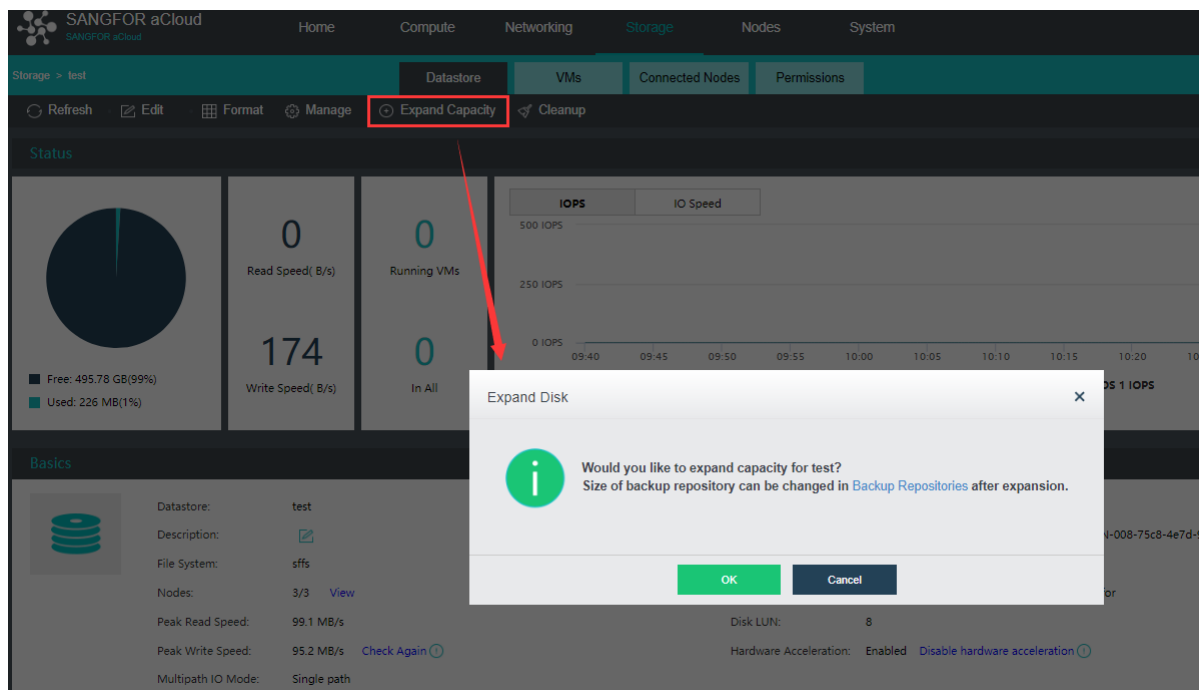

1. Navigate to [Storage] – [Other Datastores]. Select [Update] and [Scan for New Disks].

2. Navigate to the iSCSI external storage summary page.

3. Select [Expand Capacity] and choose [OK] for the prompt out windows.

4. After storage expansion, iSCSI storage changed from 500GB to 600GB.
